

# Fire Safety from Chubb Fire

The Chubb approach to Fire Safety is to **Prevent** Fire | **Detect** Fire | **Contain** Fire | **Escape** Fire

- Most fires start in the kitchen, followed by the bedroom and the living room.
- Nearly 80% of all fire deaths occur in the home.
- Make sure it doesn't happen to you, be fire safety aware.

If you need help designing alternatives to these requirements for those with special needs please contact the Special Needs Office at Gilwell Park.

## Handy hints

- Advice from UK fire service is quite clear. In the event of fire Get Out, Call the Fire Brigade Out, Stay Out.
- An adult may be able to put out a small fire in the home with an extinguisher. Always remember to raise the alarm first.
- The emergency number to call is 999.
- Prepare and practise a home escape plan.
- Plan two ways out of every room.
- Replace the batteries twice a year in your smoke alarms and check they are working on a regular basis.
